These are the most recent titles added to our Catalogue (since 2009). As libraries usually request 'the latest titles', this Booklist only shows titles which have been published since Jan 2009.

The Booklist is a 'living document' for the year - and will grow as we progress through the year.

Individual Stocklists, for each language, are available from our website. The Cumulative Booklists, and our Stocklists for all our titles are uploaded weekly to the website.
